

How to Find Us

From London, the easiest way is to leave the M40 at Junction 8 and take the A40 to Oxford. Take the Ring Road North and head for the A44 towards Evesham. Upon entering Enstone, turn right opposite the service station and continue across a dog-leg crossroads until you reach the A361. Turn left and first right and drive down and through the village of Swerford. Go up the hill out of Swerford and continue around a bend before coming down another hill into Hook Norton. As you reach the 30mph signs, turn left and we are the second house on the right opposite a large house. The office is approached via a driveway just past the house.

From the M40 Junction 11: Follow the signs for Banbury and then Chipping Norton. Once on the A361 towards Chipping Norton, continue through the village of Bloxham. Shortly after leaving Bloxham turn right signposted towards Hook Norton. Upon reaching Hook Norton, turn left opposite the village shop and proceed down the hill and up the other side. As you reach the edge of the village turn right and we are the second house on the right opposite a large house. The office is approached via a driveway just past the house.

From the South West and Wales: The nearest towns to aim for are Stow on the Wold or Morton-in-Marsh. From either of these, head towards Chipping Norton. Once you reach Chipping Norton, follow the signs to Banbury A361. 1 mile outside Chipping Norton, shortly after crossing the A3400 (Ma Larkins) turn left towards Hook Norton. Follow the signs for Hook Norton (approximately 3 miles). As you approach the village down a steep hill and see the signs announcing that you have reached Hook Norton turn right down a small lane signposted Southrop. Proceed down this lane until you reach the houses and keep right at the next junction. After approximately 100 yards you will see a large house on the right. Easter Cottage is directly opposite this house and the office is approached via a driveway just before the house. The lane is very quiet and you may park wherever you can find a space.

Park opposite the end of the driveway.
